

Editorial note: A Review on Toxicity and Challenges in Transferability of Surface-functionalized Metallic Nanoparticles from Animal Models to Humans

Published Online: February 24 2022

Article Reference: Asghar MA, Yousuf RI, Shoaib MH, MA Asghar. *Bio Integration* 2021;2:71-80. <https://doi.org/10.15212/bioi-2020-0047>

The Editors of *Bio Integration* wish to note that **Figure 4** from the above article is a reproduction of **Figure 8** first published in Asghar MA, Yousuf RI, Shoaib MH, Asghar MA, Ansar S, Zehravi M, Abdul Rehman A. Synergistic nanocomposites of different antibiotics coupled with green synthesized chitosan-based silver nanoparticles: characterization, antibacterial, in vivo toxicological and biodistribution studies. *Int J Nanomedicine* 2020;15:7841-7859. <https://doi.org/10.2147/IJN.S274987>

Because of issues with **Figure 8**, this article has been retracted. Further details are available at: <https://www.dovepress.com/retraction-synergistic-nanocomposites-of-different-antibiotics-coupled-peer-reviewed-fulltext-article-IJN>.
